

HOW TO IMPROVE CHEMICAL RISKS PREVENTION?

Safety in the workplace is a key issue for all companies and laboratories that handle chemicals. To act in case of an incident and to prevent chemical risks, it is essential to have quick access to safety-related documents.

On a daily basis, your teams handle many potentially dangerous chemicals. It is essential that they have all their SDS to hand in order to carry out their work in complete safety and to react effectively in the event of an incident.

The user quickly went to fetch all files and folders.

The user quickly grabs his mobile or tablet.

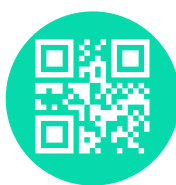

In view of all the files in the workplace, the panicked user does not know where the product's SDS can be found.

He runs the Ineon Safety Pro app and logs in automatically.

He is fetching all the binders where SDS are usually stored.

He scans the product's CAS number, barcode or QR code with its mobile or tablet.

The user manually searches for the SDS of his product in the different binders.

Ineon Safety Pro immediately displays the SDS of the scanned product.

After a long search, the SDS is finally found. The user can act safely.

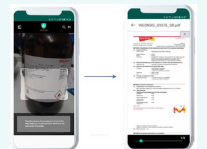

The user has full access to all safety data. He can act safely.

Time spent: more than 15 minutes.

Time spent: less than 30 sec.

INEON SAFETY PRO MAKES ALL THE DIFFERENCE!

Contact-free access to all your SDS

French and English interface, available on mobile and tablet

Recognition and reading of CAS number and/or QR code

Quick and easy setup

Save time and increase reactivity

Available as white label with your own logo

BENEFITS FOR SAFETY MANAGERS, HSE MANAGERS AND RESEARCHERS:

- Already 600,000 SDS referenced and regularly updated (additional SDS can be added within 24 hours on request)
- Quick deployment regardless of the number of users and the business or research sector (chemistry, biology, cosmetics, agri-food, industry, transport, etc.)
- Enables your teams to react quickly and efficiently in the event of an incident
- Meet legal obligations in full compliance
